OUTPATIENT INFUSION

UNIVERSITY
HEALTH CARE SYSTEM

Infusion Services

The Infusion Center offers comprehensive infusion services and the peace of mind of onsite healthcare providers in a hospital outpatient setting. Our goal is to provide quality, compassionate, patient-centered care in a comfortable and convenient location. We believe in taking care of the whole person, providing for physical, emotional and educational needs.

Our Team

Our team is made up of registered nurses who are specially trained in infusion and oncology nursing.

The nurses work together to closely monitor each treatment. The nurses are also committed to educating patients about their treatment and providing for patients' comfort.

Setting

The Infusion Center offers both semi-private and private rooms as space permits. There are TVs in each room. We provide drinks and allow patients to bring in outside nourishment.

TREATMENTS

Infusion services include but are not limited to the following:

- Blood products
- Chemotherapy
- Biotherapy (remicade, etc)
- IV fluid/Hydration therapy
- IV electrolyte replacement
- IGG infusions
- Iron infusions
- Steroid infusions
- Osteoporosis medications
- Xolair injections
- Cortisol Stimulation Tests
- Colony Stimulating Factors (neulasta, epogen, Procrit , & etc)
- IV antibiotics
- PICC line care
- Port-a-cath maintenance and lab specimen collection from port-a-cath

REFERRALS

Your physician or physician's office will call Infusion Services to set up an appointment.

We will schedule with you once all information is gathered.
